REQUEST: AT&T Communications of New England, Inc.'s First Set of Information Requests to Competitive Local Exchange Carriers

DATE: December 18, 2003

ATT-CLEC-1: Please confirm whether the CLEC is a competitive local exchange carrier ("CLEC") providing telecommunications service in Massachusetts, and state whether the CLEC is an affiliate of such a CLEC or of an incumbent local exchange carrier ("ILEC") within Massachusetts. If the is an affiliate of another CLEC or an ILEC, please identify the affiliate and describe the affiliation. For purposes of these Requests, "affiliate" shall be as defined in the Communications Act of 1934. Section 3 of the Act defines the term "affiliate" as "a person that (directly or indirectly) owns or controls, is owned or controlled by, or is under common ownership or control with, another person. For the purposes of this paragraph, the term 'own' means to own an equity interest (or the equivalent thereof) of more than 10 percent." 47 U.S.C. § 153(1).

Respondent: Jason Spinard, General Counsel

RESPONSE: Granite Telecommunications, LLC ("Granite") is a competitive local exchange carrier ("CLEC") providing telecommunications service in Massachusetts. Granite is not an affiliate of a CLEC or of an incumbent local exchange carrier ("ILEC") within Massachusetts.

REQUEST: AT&T Communications of New England, Inc.'s First Set of Information  
Requests to Competitive Local Exchange Carriers

DATE: December 18, 2003

ATT-CLEC-2: Please state whether the CLEC currently uses non-ILEC switches to provide local exchange service to Massachusetts customers via analog voice-grade loops. (For purposes of this question, please do not include any DS-0 or voice grade switched circuits that are part of a T1 circuit or a DS-1 or above circuit.) If so, for each such switch please provide the following information:

The switch type, including manufacturer and model;

The 8-digit common language location identifier ("CLLI") code as it appears in the Local Exchange Routing Guide ("LERG");

The switch location by street address, city or town, and state if other than Massachusetts;

A list of all NPA/NXX codes or 1000s blocks of numbers served with the switch;

Currently equipped and currently utilized line-side capacity, by number of DS0 and DS1 circuits;

The number of customers being served by the switch who receive:

Only voice service;

Only data service; and

Voice and data service; and

A list of all Verizon-Massachusetts ("Verizon") central offices ("COs") in which the CLEC has a collocation arrangement which subtends to the switch.

Respondent: Jason Spinard, General Counsel

REQUEST: AT&T Communications of New England, Inc.'s First Set of Information Requests to Competitive Local Exchange Carriers

DATE: December 18, 2003

ATT-CLEC-3: Please provide the following general information regarding any local exchange service that the CLEC is currently offer to customers in Massachusetts using voice-grade loops served by a non-ILEC switch (i.e., excluding service offered via UNE-P or via T1 circuits or DS1 or above circuits).

- a. Does the CLEC currently provide local exchange service to *residential* customers in Massachusetts using voice-grade loops served by a non-ILEC switch? Are you currently advertising or marketing this service, and if so how?
- b. Do you currently provide local exchange service to *business* customers in Massachusetts using voice-grade loops served by a non-ILEC switch? Are you currently advertising or marketing this service, and if so how?
- c. If the CLEC has offerings of local exchange service using voice-grade loops served by a non-ILEC switch that are targeted to specific customer segments within Massachusetts (e.g., a residential offering, a small business offering, an offering available in only a portion of the state, etc.), please provide a list and description of these offerings, including a description of the service offered and a full explanation of the customer segment to which it is offered or provided. Please also indicate which, if any, of these offerings are provisioned on a UNE-L basis, and where.

Respondent: Jason Spinard, General Counsel

RESPONSE: Granite does not provide local exchange service to residential and business customers using voice-grade loops served by a non-ILEC switch.

REQUEST: AT&T Communications of New England, Inc.'s First Set of Information  
Requests to Competitive Local Exchange Carriers

DATE: December 18, 2003

ATT-CLEC-4: Please state whether the CLEC leases voice-grade loops from Verizon to provide local exchange service in Massachusetts on a UNE-L basis. (For purposes of this question, please do not include any DS-0 or voice grade switched circuits that are part of a T1 circuit or a DS-1 or above circuit.) If so, please provide, for the most recently available point in time (specifying what it is), and for each Verizon wire center serving area in which you offer service (if the data is available), for each CLEC switch through which you offer service (identifying switches by CLLI code), and on a statewide basis, the number for your company of:

Residential customers so served;

Business customer locations so served with 1 to 4 lines;

Business customer locations so served with 5 to 9 lines;

Business customer locations so served with 10 to 16 lines; and

Business customer locations so served with 17 to 24 lines.

Respondent: Jason Spinard, General Counsel

RESPONSE: Granite does not lease voice-grade loops from Verizon to provide local exchange service in Massachusetts on a UNE-L basis.

REQUEST: AT&T Communications of New England, Inc.'s First Set of Information  
Requests to Competitive Local Exchange Carriers

DATE: December 18, 2003

ATT-CLEC-5: For each Verizon CO in which the CLEC maintains a collocation arrangement  
used to provide service to customers using unbundled voice-grade loops (i.e.,  
excluding service offered via UNE-P or via T1 circuits or DS1 or above  
circuits) on a UNE-L basis, please provide the total number of loops at the end  
of each quarter from January 1, 2002, to the present for the following  
categories:

Residential;

Business customer locations with 1 to 4 lines;

Business customer locations with 5 to 8 lines;

Business customer locations with 9 to 16 lines; and

Business customer locations with 17 to 24 lines.

Respondent: Jason Spinard, General Counsel

RESPONSE: Granite does not maintain a collocation arrangement in any Verizon central  
office to provide service to customers using unbundled voice-grade loops (i.e.,  
excluding service offered via UNE-P or via T1 circuits or DS1 or above  
circuits) on a UNE-L basis.

REQUEST: AT&T Communications of New England, Inc.'s First Set of Information Requests to Competitive Local Exchange Carriers

DATE: December 18, 2003

ATT-CLEC-6: For each Verizon CO where the CLEC serves customers on a UNE-L basis, and for each quarter since January 1, 2002, please provide the following information:

The number of ILEC-to-CLEC hot cuts that the CLEC requested from Verizon, and the number of such hot cuts that Verizon performed for the CLEC;

The number of CLEC-to-CLEC hot cuts that the CLEC requested from Verizon, and the number of such hot cuts that Verizon performed for the CLEC;

A breakdown of performed hot cuts by the type of hot cut (e.g., individual or batch);

The percentage of hot cuts that required a field dispatch; and

The percentage (listed separately) of hot cuts:

That were not completed by the scheduled due date; and

That resulted in customer-affecting line trouble.

Respondent: Jason Spinard, General Counsel

RESPONSE: Granite does not serve customers on a UNE-L basis.

REQUEST: AT&T Communications of New England, Inc.'s First Set of Information  
Requests to Competitive Local Exchange Carriers

DATE: December 18, 2003

ATT-CLEC-7: Please describe the method or methods by which the CLEC requests hot cuts  
from Verizon. Please also describe the method or method by which the CLEC  
obtains notification of completed hot cuts.

Respondent: Jason Spinard, General Counsel

RESPONSE: Granite does not request hot cuts from Verizon nor does Granite have the  
capability to request hot cuts from Verizon.

REQUEST: AT&T Communications of New England, Inc.'s First Set of Information Requests to Competitive Local Exchange Carriers

DATE: December 18, 2003

ATT-CLEC-8: Please state whether the CLEC leases *UNE-P* arrangements from Verizon to provide local exchange service in Massachusetts. If so, please provide, for the most recently available point in time (specifying what it is), and for each Verizon wire center serving area in which you offer service (if the data is available), and on a statewide basis, the number for your company of:

Residential customers so served;

Business customer locations so served with 1 to 4 lines;

Business customer locations so served with 5 to 9 lines;

Business customer locations so served with 10 to 16 lines; and

Business customer locations so served with 17 to 24 lines.

Respondent: Geoff Cookman

RESPONSE: Granite leases *UNE-P* arrangements from Verizon to provide local exchange service in Massachusetts. Granite considers its responses to the remainder of ATT-CLEC-8, attached, confidential and subject to the conditions of the Protective Order in this proceeding.

REQUEST: AT&T Communications of New England, Inc.'s First Set of Information Requests to Competitive Local Exchange Carriers

DATE: December 18, 2003

ATT-CLEC-9: If the CLEC provides cable television service in Massachusetts, please state for the state as a whole and, to the extent available, for each city or town in Massachusetts:

- a. To how many customer locations does the CLEC provide local exchange service?
- b. To what percent of the CLEC's telephony customers does the CLEC provide standalone local exchange service , without also providing either broadband or cable television service? What is the typical or average price for this service?
- c. To what percent of the CLEC's telephony customers does the CLEC provide local exchange service together with broadband service, without also providing cable television service? What is the typical or average price for this combined service?
- d. To what percent of the CLEC's telephony customers does the CLEC provide local exchange service together with cable television service, without also providing broadband service? What is the typical or average price for this combined service?

To what percent of the CLEC's telephony customers does the CLEC provide local exchange service together with both cable television and broadband service? What is the typical or average price for this combined service?

Respondent: Jason Spinard, General Counsel

RESPONSE: Granite does not provide cable television service in Massachusetts.

REQUEST: AT&T Communications of New England, Inc.'s First Set of Information Requests to Competitive Local Exchange Carriers

DATE: December 18, 2003

ATT-CLEC-10: Please state whether the CLEC owns one or more dedicated transport circuits which provides an unswitched transmission path at a DS1 or higher level between any two Verizon central offices at which the CLEC maintains active physical collocation facilities. If the answer is yes, please provide the following information:

As to each such pair of central offices, state:

The common name, address and CLLI code for each pair of central offices;

The transmission level of each dedicated transport circuit terminating at both physical collocation facilities (e.g., DS1, DS3, OC3, etc.); and

Whether the CLEC is "operationally ready" (as the phrase is used in Triennial Review Order ¶ 406) to provide dedicated transport between those two Verizon central offices.

Does the CLEC purchase, lease or otherwise obtain UNE Transport, special access, or any other type of transmission capacity on the route, or any portion thereof, between any pair of COs just identified? If so, please identify the type of transmission capacity and the pair of central offices served by this capacity.

Respondent: Jason Spinard, General Counsel

RESPONSE: Granite does not any dedicated transport circuits which provide an unswitched transmission path at a DS1 or higher level.

REQUEST: AT&T Communications of New England, Inc.'s First Set of Information Requests to Competitive Local Exchange Carriers

DATE: December 18, 2003

ATT-CLEC-11: Please state whether the CLEC has any long-term (10 or more years) dark fiber indefeasible rights-of-use ("IRUs") between any two Verizon COs at which the CLEC maintains active physical collocation facilities. If the answer is yes, please provide the following information:

As to each pair of central offices, identify:

The common name, address and CLLI code for each pair of central offices,

The number of dark fiber circuits terminating at both of the physical collocation facilities,

The term of the IRU.

Does the CLEC purchase, lease or otherwise obtain UNE Transport, special access, or any other type of transmission capacity on the route, or any portion thereof, between any pair of COs just identified? If so, please identify the type of transmission capacity and the pair of central offices served by this capacity.

Respondent: Jason Spinard, General Counsel

RESPONSE: Please refer to response to request ATT-CLEC-5.

REQUEST: AT&T Communications of New England, Inc.'s First Set of Information Requests to Competitive Local Exchange Carriers

DATE: December 18, 2003

ATT-CLEC-12: Please state whether the CLEC offer dedicated transport to unaffiliated carriers on a wholesale basis between any pairs of Verizon COs? If so, for each such pair of Verizon COs, please provide the following:

How such transport is offered to unaffiliated carriers (e.g., through tariffs, standard contracts, individually negotiated contracts),

The levels (DS1, DS3, OC3, etc.) at which such dedicated transport has been provided to wholesale customers,

The amount of unused lit capacity available for purchase by unaffiliated carriers on a wholesale basis, at each transmission level.

Respondent: Jason Spinard, General Counsel

RESPONSE: Granite does not offer dedicated transport to unaffiliated carriers on a wholesale basis between any pairs of Verizon COs.
